

SMB Cybersecurity Essentials

Address these 30 items to secure your organization.

Use this checklist to ensure you're accounting for privacy concerns, compliance issues, and the policies and procedures critical to maintaining a secure organization and a culture of cybersecurity.

Privacy Program

<input type="checkbox"/>  1. Internal privacy policy	<input type="checkbox"/>  2. Employee training on the privacy policy	<input type="checkbox"/>  3. Internal policy for data retention
--	--	---

Security Program

<input type="checkbox"/>  4. Security awareness training of employees and contractors	<input type="checkbox"/>  5. Phishing awareness training	<input type="checkbox"/>  6. Clean desk policy
<input type="checkbox"/>  7. Visitor program	<input type="checkbox"/>  8. Identify digital assets	<input type="checkbox"/>  9. Multi-Factor Authentication (MFA)

Response

<input type="checkbox"/>  10. Incident response policy	<input type="checkbox"/>  11. Incident response procedures	<input type="checkbox"/>  12. Incident response roles
--	--	---

Tools

<input type="checkbox"/>  13. Virtual Private Network (VPN)	<input type="checkbox"/>  14. Secure WiFi / wireless networking	<input type="checkbox"/>  15. Secure Email Gateway (SEG)
<input type="checkbox"/>  16. System auditing	<input type="checkbox"/>  17. Configure backup solution	<input type="checkbox"/>  18. Test backup solution
<input type="checkbox"/>  19. Domain Name System (DNS) and content filtering	<input type="checkbox"/>  20. Endpoint Detection and Response	<input type="checkbox"/>  21. Security Incident and Event Management (SIEM)

System Hardening

<input type="checkbox"/>  22. Clean up all unused programs on all systems	<input type="checkbox"/>  23. Use group policies and active directory	<input type="checkbox"/>  24. Secure endpoint configurations
<input type="checkbox"/>  25. Implement perimeter security	<input type="checkbox"/>  26. Patch management plan	<input type="checkbox"/>  27. Monitor and track behavior in cloud apps

Vulnerability Management and Assessment

<input type="checkbox"/>  28. Define a vulnerability analysis	<input type="checkbox"/>  29. Vulnerability management program
--	---

30. Trusted partners to manage and monitor

Partner with Yeo & Yeo Technology for your cybersecurity needs.

As attacks have grown in number and sophistication, most SMBs no longer have the resources to deal with security issues effectively. In fact, 78% of SMBs are concerned that a severe cyberattack could drive them out of operation. Let us help assess your current cybersecurity stance and provide solutions to keep your business secure.
